

## DECEMBER 2008

### Vedat Today

This fall has brought some major changes for Vedat! He is residing with the Hatcher's for the coming year and has made himself right at home! He is attending Gainesville Middle School as an 8<sup>th</sup> grader(!). The transition has been challenging, but he has quickly endeared himself to the staff and students there. Vedat's physical therapist is very pleased with his continued improvement and increase in physical strength. Vedat will travel home to Montenegro over Christmas break to spend time with his Mom and 3 younger brothers. Several Vedat support team members will join in on the trip and begin to do some strategic planning for short-term mission teams who will begin ministering next summer to the Konic Refugee camp, Vedat's home. The team members will also be ministering to the other Roma gypsies by sharing the Christmas story with many households and also holding an arts and crafts camp each afternoon during this short trip.
