Vedat Update

Vedat, our incredible 12-year old guest from Montenegro is still awaiting spinal surgery. We found out in August that Shriners' Hospital in Chicago will take his case and we are currently in the process of getting things set up for him to go there! Vedat and his Croatian traveling companion, Vedrana, have been guests in 4 of our church families homes—thank you families! Vedat has been enjoying his time with us and is quickly grasping the English language. Continue to pray for him—both physically and spiritually.
